**TOP 10 REVISION TIPS** (Adapted from an article by Sunny Jain for The Independent – 17<sup>th</sup> April 2013)

- 1. Draw up a revision timetable**  
See below 😊
- 2. Exercise**  
Physical activity is very important, in particular during intense study time. Physical activity increases heart rate which makes the blood circulate faster. This in turn ensures that brain gets more oxygen which increases productivity whilst reducing tiredness and stress.
- 3. Find a quiet space**  
This is a pretty straightforward one: you desperately need a place where you can be uninterrupted for a few hours.
- 4. Get down to it in the morning**  
Try to stick to your revision timetable and start revising in the morning - research shows that you are more likely to do all the planned work if you start early.
- 5. Spice up your revision**  
Use a bit of colour - drawing colourful learning maps will help you to memorise facts.
- 6. Do plenty of past papers**  
Ask your teacher for some past papers or download them from <http://www.sqa.org.uk/pastpapers/findpastpaper.htm>
- 7. Make summary notes**  
Making notes is by far the best way to memorise lots of information.
- 8. Reward yourself**  
It is not all about the work; you need good breaks too. For instance spend some time with friends after a productive day of revision or treat yourself to something sweet.
- 9. Use your family and friends**  
Ask people around you to test you and give you feedback. You should already have made handy revision notes (see point 7). This is not only a good way to revise but also a good way to have a break from the hard work.
- 10. Think positive!**

## Prelim Preparation Calendar

- When you have the dates of the prelim exams write these onto the calendar
- Look back at the units you are going to revise together with activities you are going to do. Put these onto your calendar - use pencil.
