Buchan Transport Link

Be-Link'D for those necessary journeys

From February, our new community transport service will be operating throughout Buchan and beyond for those who do not have access to suitable transport.

Whether it be shopping for basic foodstuff, accessing services, training and employment or for socialising, if lack of access to public transport or a car is an issue, contact **Be-Link'D** to find out about our routes and timetables or to book your first journey.
